Estimates reported in conversation unless labelled sample; not externally verified.

Selected alternative · Mortgage

Mortgage balance	240,000 EUR	Annual interest (%)	2.15 %
Remaining term (months)	240 months	Monthly payment (before extra)	1,231.24
Monthly extra repayment	300	Interest over the term	41,978.73
Months to payoff	185	Δ Monthly payment including extra	300 EUR
Δ Change in interest	-13,519.78 EUR	Δ Remaining term (months)	-55
Remaining unallocated / month	-111.24 EUR		

Immutable model snapshot, not an offer. mortgage-1.1.0 · 2026-09-04

Assumptions and limits

Monthly extra repayment is a model assumption; contract permission is not established. Housing is included in spending. The mortgage is not deducted twice. Excludes taxes, fees and refinancing costs. Interest and repayment rounded monthly to cents.

Still to clarify

- Target amount

Documents that may help

- Current asset summary, if available
- Mortgage statement / repayment schedule
- Latest pension estimate

Questions and next steps

- Is there a specific amount attached to that goal?
